

Supplementary Figure 1

Supplementat{ Figure 1 β -estradiol-induced overexpression of *JR3* in a transgenic tomato hairy root line OX1 used in microarray analysis. The line had been established in Nakayasu et al. (2018). Transcript levels were measured by qRT-PCR, and are shown relative to the control. Error bars represent standard deviations for three biological replicates. Significant differences against the control were determined by Student's *t*-test; ** $P < 0.01$, * $P < 0.05$.
