

Dear prospective authors of *Plant Biotechnology*,

Japanese Society for Plant Biotechnology has to inform you about the hike of the page charge regarding the manuscripts received after November 1st, 2022.

We have been working to increase the visibility of *Plant Biotechnology* by publicizing all the articles on-line, acquiring impact factor, registering our journal to PubMed, and licensing Creative Commons CC-BY. As a result of these efforts, impact factor of the journal has recovered from 0.547 (2017) to 1.133 (2020). However, these efforts did not recover the business balance of the journal.

Thus, we would like to charge new page charges to the manuscript received after November 1st, 2022. We thank you for your support and look forward to being of service to you.

New page charges are as follows (in Japanese Yen (JPY));

Manuscript category	Corresponding author;	Until October 31, 2022 (JST)	After November 1 st , 2022 (JST)
